

Portable Parts Washer

1. Operates with a water-based system.
2. Easier and safer than solvent-based system.
3. Heated for better degreasing effect.
4. Small and portable.

- **Specifications:**

1. Power supply: 230Vac
2. Power supply cable length: 1.2m
3. Tank capacity: 12 liters
4. Tank min. Level: 8 liters
5. Dimensions: 700x460x260mm
6. Weight: 6.20kg

- **Made of polyethylene**
- **Pump switch**
- **Stainless steel mesh filter**
- **Bag filter**

This filter is made of polypropylene with particle removal rating of 25micron, thermowelded on a ring (molded in polypropylene), that is necessary for the fixing.

The cleaning solution flows from the washing basin, through the bag filter, into the tank.

This bag filter is fixed on the lid of the tank by its ring, so you can replace it very easily.

- **Submersible pump**

Made of ABS.

Technical characteristics:

1. Power: 8 W
2. Power supply: 220-240Vac, 50Hz
3. Pump head: 0.90m
4. Flow: 650 l/h
5. Dimensions: 60x45x60mm

- **Thermostatic submersible heater**

The heating element is an automatic heater. The required temperature can be selected. The heating element will heat the cleaning solution to the selected temperature and ensure that it is kept at this temperature constantly. A special automatic shut-off function (Double Shut-Off) makes the heating element particularly safe. It switches off the heating element when it is not completely submersed. And there is a threat of overheating. The heating element is protected therefore against damage.

Specifications:

1. Power: 200 W
2. Precise temperature adjustment from 18 up to 36°C
3. Temperature deviation: +/-1°
4. Completely submersible (watertight)
5. Automatic dry run shut-off (Double Shut-Off)
6. Efficient heat transfer

- **Flow-through parts washer brush**

Designed for industrial parts washers with cleaning solution circulating pumps. It delivers a continuous stream of cleaning solution through the bristle.

Specifications:

1. Bullet-shaped tip resists mushrooming
2. Durable, injection-molded handle with ribbed design for firm grip
3. Long-lasting, stiff polyester filament
4. Length: 260mm
5. Weight: 120g
